

Length Measuring Tools -- CELTIC SURVEYS LTD

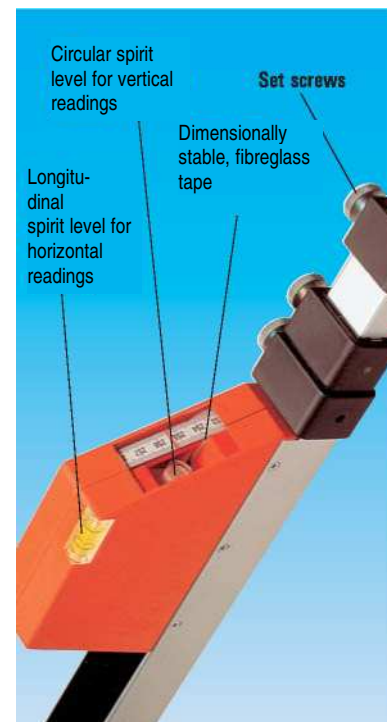

Nedo mEssfix-S

With a measuring range of up to 8 m the **mEssfix-S** is the ideal helper on the construction site, e.g. for work on scaffolding, for measurements of facades or for the determination of clearances. The display is attached on the upper end of the rod which allows for a convenient read-off.

Features:

- Measuring ranges: 5 m, 6 m and 8 m
- Display unit contains two integral spirit levels, conveniently placed at eye level
- Circular spirit level for vertical alignment
- Longitudinal spirit level for horizontal alignment
- Tape winding spring made of best quality spring steel
- Telescopic sections made of sturdy, rectangular-profile aluminium
- Set screws allow extending sections to be locked in any position

The user-friendly model.
